- Jimmy Cappo - Senior Water System Operator
- Brice Meier - Senior Water System Operator
- Ron Payne - Senior Water System Operator
- Skyler Passey - Facilities Lead
- Brandon Rodeback - Maintenance Tech III

EMPLOYEE RETIREMENTS

Hal Miller retired from the District on August 31, 2023. He started as a Plant Operator before transitioning to a General Repairman. After a few years, he became a Maintenance Technician III where he spent the remainder of his years with the District. He worked for the District for over 21 years.

During his time with the District, Hal was instrumental in the implementation of the boiler and dehumidifiers revamp and their continued maintenance. His background, knowledge and willingness to share that knowledge with others will continue to play a huge role in our ability to keep the boiler and HVAC system for the LCWTP online and working properly. He also suggested a way to use air to aid in offloading chemicals to storage tanks, which greatly cut down on the wear and tear of chemical seals and pumps. In his time, he strived to be a mentor to the newer staff and teach them all he could.

Hal is looking forward to having more time to relax, golf, take vacations with his wife, and spend time with his friends during his retirement. He was a valued member of the team and will be missed! We wish him nothing but happiness in his retirement.

Pat Tom also retired from the District on August 31, 2023. He worked for the District for over 19 years as a Water System Operator. Prior to working for the District, he had a long career in the electronics industry. During his tenure, he prided himself on being able to resolve problems he would come across while operating the plant. He enjoyed the work/life balance the District offered as an operator.

In his retirement, he is looking forward to enjoying his hobbies of golfing, biking, hiking and skiing. Enjoy your retirement and all of the exciting adventures ahead of you!
