## **Reporting/Scheduling items**

## **Reporting/Scheduling items — Annual compliance** report

#### Last Update: December 9, 2024

**Objective:** Provide Board of Trustees with a report of District compliance

**Background**: The Auditor General developed a list of best practices for internal control and governance. One of the best practices for board members of special purpose entities was to verify that the entity has complied with applicable state laws. The District has complied with the following state laws:

State Law	Utah Code	Completed	Frequency
Certification and filing of annual budget	17B-1-614	8/13/24	Annually
Notice of public meetings	52-4	10/21/24	Monthly
Notice of board member contact information	17B-1-303	4/9/19	As needed
Participation in Utah public finance website	63A-3-405.4	10/24/24	Quarterly
Financial statement reporting requirements	51-2a-202	10/31/24	Annually
Local government and limited purpose entity	67-1a-15	7/1/24	Annually
registry			_
Fraud risk assessment form	67-3-1(4)(a)	4/16/24	Annually

In addition, the District has other financial compliance reporting requirements. The District is current with the following financial requirements:

Governing Document	Description	Completed	Frequency
Master Resolution April 29, 2002	Accountant's certificate (auditor's compliance report from audit)	10/31/24	Annually
	Written statement of issuer regarding insurance policies	10/31/24	Annually
	Certificate of no default	10/31/24	Annually
	Audited financial statements with supporting information	10/24/24	Annually
	Adopted District budget	8/13/24	Annually
Money Management Act	Deposit and investment report Swap report	7/17/24	Semi- annually
EMMA	Continuing disclosure submittal	11/27/24	Annually

**Recommendation:** Provide compliance report to board annually.

#### CALENDAR 2025

#### January

- 7 Environmental Committee Meeting 8:30 a.m.
- 14 Engineering Committee Meeting 10:00 a.m.
- 27 MWDSLS Work Session 3:30 p.m.
- 27 MWDSLS Board Meeting -4:30 p.m.
- 28 Executive Committee Meeting 10:00 a.m.
- 30 SLCPUAC Meeting 7:30 a.m.
- 30 PRWUA Board Meeting 10:30 a.m.

#### **February**

- 4 Engineering Committee Meeting 10:00 a.m.
- 20 SCPUAB Meeting 7:30 a.m.
- 24 MWDSLS Work Session 3:30 p.m.
- 24 MWDSLS Board Meeting 4:30 p.m.
- 27 SLCPUAC Meeting 7:30 a.m.
- 27 PRWUA Board Meeting 10:30 a.m.

#### <u>March</u>

- 4 Engineering Committee Meeting 10:00 a.m.
- 10 Management Advisory Committee Meeting 9:30 a.m.
- 17-19 Utah Water Users Workshop, St. George
- 20 SCPUAB Meeting 7:30 a.m.
- 24 MWDSLS Work Session 3:30 p.m.
- 24 MWDSLS Board Meeting 4:30 p.m.
- 27 SLCPUAC Meeting 7:30 a.m.
- 27 PRWUA Board Meeting 10:30 a.m.

# THE METRO UPDATE

January 2025

### WAYNE WINSOR RETIREMENT

Wayne Winsor retired as the District's Assistant General Manager and Chief Administrative Officer on December 31, 2024, after nearly 25 years of dedicated service. Wayne joined the District in 2000 to manage the construction of the New Chemical Building at the Little Cottonwood Water Treatment Plant,

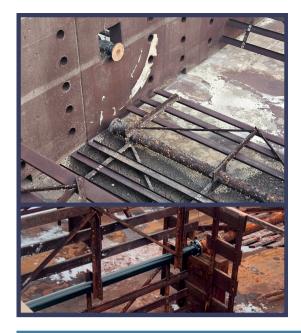

a project he originally helped design as a consulting engineer. Over the years, he played a key role in major initiatives, including managing the Point of the Mountain Water Treatment Plant project and establishing a robust asset management and capital planning program. In 2006, Wayne helped the District acquire the Salt Lake Aqueduct (SLA) corridor and developed a land management program that facilitated hundreds of approved uses. Wayne will continue to serve his community through volunteer work and coaching in retirement. We thank him for his invaluable contributions and wish him all the best in this new chapter of his life.

## DISTRICT SECURES FEMA GRANT

In 2023, the District applied for a grant through FEMA's Building Resilient Infrastructure and Communities (BRIC) program to advance the Salt Lake Aqueduct Replacement project. This grant will support efforts to further define the project scope for the section of pipeline between Fort Union Boulevard and the Terminal Reservoir. Key areas of focus will include exploring alignment options, determining pipe size and material, and assessing hydraulic considerations.

The grant provides \$375,000 in funding, with an additional \$25,000 allocated for grant management expenses. The District will contribute a minimum of \$125,000 in matching funds, ensuring a strong foundation for the project's initial phases. Once agreements are signed, the District will proceed with advertising for consulting services and initiating the design process. This milestone marks a significant step toward enhancing the resilience and efficiency of the Salt Lake Aqueduct. Stay tuned for further updates as the project progresses!

## **REPAIR OF FLOC BASIN #3**

Recently. Operations identified a critical issue with Floc Basin #3 at the Little Cottonwood Water Treatment Plant. One of the paddles was lying on the basin's floor due to a shearing off of the shaft. Maintenance staff quickly assessed the damage and took precise measurements to fabricate a new shaft. The reconstruction process provided an excellent opportunity for several technicians to receive hands-on training. The team successfully rebuilt the shaft and reassembled the paddles. showcasing their technical expertise. We are pleased to report that Floc Basin #3 has been fully restored and is now back in service, operating smoothly once again. A big thank you to everyone involved for their hard work and dedication. The repair of the shaft highlights the skill and commitment of our team!

#### ROOFTOP UNIT AT POMWTP

The District recently tackled a challenge in maintaining adequate cooling in the Ozone Room at the Point of the Mountain Water Treatment Plant (POMWTP). The room's cooling needs were initially addressed through circulation using a make-up air handling unit, exhaust fans, and louvers. However, during the summer months, temperatures inside the room reached as high as 85°F, creating a less-thanideal environment for staff and equipment.

The issue was further compounded during the 2019-2020 Power Monitoring Upgrade Project when adding a new networking cabinet increased the room's heat load. To address the situation and ensure a consistently cool working environment ( $\leq 75^{\circ}$ F), the District engaged Gunthers Heating & Air, a trusted

HVAC contractor, to install a dedicated rooftop cooling unit with a 15-ton capacity.

The new cooling unit was installed in mid-December 2024, and the system was successfully started up and commissioned on January 8, 2025. The Instrumentation & Electrical (I&E) team played a key role in managing the project, providing the necessary electrical infrastructure, and supporting the system's start-up.

Thanks to the efforts of our staff and contractors, the Ozone Room is now equipped to maintain a cooler, more comfortable environment for both personnel and critical equipment.
