## Independent Auditor's Report

Board of Trustees  
Metropolitan Water District of Salt Lake & Sandy

### ***Opinion***

We have audited the accompanying financial statements of Metropolitan Water District of Salt Lake & Sandy (the District) as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2024 and 2023, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Metropolitan Water District of Salt Lake & Sandy and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and

therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Metropolitan Water District of Salt Lake & Sandy's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Metropolitan Water District of Salt Lake & Sandy's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Other Matters***

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the proportionate share of the net pension liability (asset), the schedule of contributions, and the related notes to the required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Schedule of Expenditures of Federal Awards***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards as required by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 1, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Metropolitan Water District of Salt Lake & Sandy  
Management's Discussion and Analysis (Unaudited)  
June 30, 2024 and 2023**

The management of the Metropolitan Water District of Salt Lake & Sandy (the "District") presents to the reader of the District's financial statements this discussion and analysis of the District's financial performance for the fiscal years ended June 30, 2024 and 2023.

Overview of the Financial Statements

The District's financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States, promulgated by the Governmental Accounting Standards Board ("GASB"). The District reports as a single enterprise fund. Revenues are recognized when earned and expenses are recognized in the period in which they are incurred. See the notes to the financial statements for a summary of the District's significant accounting policies (Note 1 and others).

Unrestricted	17,677,833	54,343,796	54,063,476
Total net position	<u>\$ 246,469,904</u>	<u>\$ 233,308,756</u>	<u>\$ 220,772,269</u>

Financial Analysis

- The District's total assets and deferred outflows exceeded its total liabilities and deferred inflows as of the close of the most recent year by \$246,469,904 (net position). Of this amount, \$17,677,833 (unrestricted) may be used to meet the District's ongoing obligations.
- The District's net capital assets decreased by \$151,683 (See Note 4).

*Financial Analysis (Continued)*

- The District's long-term liabilities increased by \$38,897,229, which was primarily the result of the District issuing the Series 2024A taxable water revenue bonds and Series 2024B water revenue bonds in the amount of \$55,000,000, as well as paying off bond principal and the amortization of bond reoffering premiums and deferred bond refunding amounts. As of June 30, 2024, the District has bonds receivable from these offerings in the amount of \$17,493,000.
- The District's operating revenues increased by \$361,635. The primary reason for this increase was a 3% overall increase to water rates.

The District's primary sources of revenue are made up from water sales, property taxes, and special assessment revenues. Each source of revenue is predictably stable with slight variations in property taxes due to changes in property values and/or certified tax rates. Special assessment revenues are based on each member city's investment in new system capacity and/or new water supplies. Once the special assessments are established, they remain stable until the investment in system capacity or water supply has been paid.

**Metropolitan Water District of Salt Lake & Sandy's Changes in Net Position**

<b>Year ended June 30,</b>	<b>2024</b>	<b>2023</b>	<b>2022</b>

## Metropolitan Water District of Salt Lake & Sandy's Summary of Expenses

Year ended June 30,	2024	2023	2022
Operating expenses			
Cost of sales and services	\$ 16,795,870	\$ 16,163,505	\$ 13,735,321
General and administrative	8,631,525	7,423,246	6,041,485
Depreciation	11,124,877	11,108,204	11,047,487
Total operating expenses	36,552,272	34,694,955	30,824,293
Non-operating expenses			
Interest expense	5,325,180	5,032,660	4,225,822
Contributions to other governments	842,402	813,533	945,938
Total non-operating expenses	6,167,582	5,846,193	5,171,760
Total expenses	\$ 42,719,854	\$ 40,541,148	\$ 35,996,053

### Capital Asset Activity

The District's capital assets for its governmental activities, as of June 30, 2024 and 2023, amounted to \$414,432,464 and \$414,584,147, respectively, (net of accumulated depreciation). This investment in capital assets includes the water system, land, administrative buildings and equipment, aqueduct rights and privileges, and investments in surface water resources (see Note 4).

### Long-Term Debt

The District's long-term debt for its governmental activities, as of June 30, 2024 and 2023, amounted to \$228,245,000 and \$184,400,000, respectively, an increase of \$43,845,000 (see Note 5).

### Economic Factors and Budgetary Analysis

Due to escalating costs and aging infrastructure, the District plans to increase revenue either through an increase to the certified tax rate or increase to water rates. A 3% increase for non-member city water rates is budgeted. Future water rate increases are anticipated to be 3% for fiscal year 2025, 5% for fiscal year 2026, and 6% for fiscal year 2027, pending approval by the city councils of an increase to the certified tax rate. Projected rate increases have been communicated to the member cities and they anticipate the change. Operations and maintenance expenses are budgeted at an inflationary index of 3% per year. Capital expenditures are planned using asset management techniques that evaluate the condition, criticality, and consequence of the asset. Long-term debt is reviewed on an ongoing basis in an effort to capitalize on any opportunities. As of June 30, 2024, the District's bond ratings are AA+ and AA+ by S&P and Fitch, respectively. The anticipated revenue increases are necessary to meet future O&M, capital, and debt service costs.

### Request for Information

This financial report is designed to give its readers a general overview of the District's finances. Questions regarding any information contained in this report or requests for additional information should be addressed to the General Manager, 3430 East Danish Road, Cottonwood Heights, Utah 84093 or by calling 801-942-9623.

**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Metropolitan Water District of Salt Lake & Sandy (the "District") is organized under the Metropolitan Water District Act. The District is a separate legal entity, with a seven member board, five of which are appointed by Salt Lake City and two of which are appointed by Sandy City. Board members serve for a specified term and cannot be removed without cause. However, as the member cities are unable to impose their will and are not financially accountable for the District, the District is not reported as a component unit of the member cities. Substantially all of the water resources developed by the District are sold to Salt Lake City and Sandy City.

Basis of Presentation

The District is a governmental unit that is accounted for as a business-type activity. It is classified as a proprietary fund type and operates as an enterprise fund. The District's basic financial statements are presented on the full accrual basis of accounting and conform to accounting principles generally accepted in the United States of America. The District applies all relevant Governmental Accounting Standards Board ("GASB") pronouncements.

The District reports its water production, storage, and distribution operations as a proprietary fund. Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and the Public Treasurer's Investment Fund ("PTIF").

PTIF, managed by the Utah State Treasurer's Office, operates in accordance with appropriate state laws and regulations. The reported value of the PTIF is the same as the fair value of the pooled shares and are included as cash and cash equivalents.

Investments for the District are reported at fair value.

Accounts Receivable

Accounts receivable are generally comprised of receivables on water sales and special assessment revenues, which are expected to be paid by member cities and other wholesale customers. Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management does not expect any uncollectable amounts as most payments are from governmental entities.

Supplies

Inventories, consisting of chemicals for the purification of water and fuels are stated at the lower of cost (on the first-in, first-out basis) or market.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets include property, plant, equipment, and intangible assets (i.e. investment in water sources and water rights), and are defined by the District as assets with an initial, individual cost of more than \$10,000 and an estimated useful life of more than three years. Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Water sources and water rights are recorded at their acquisition cost. Donated or contributed capital assets are recorded at their estimated fair value on the date received. Depreciation of capital assets is computed using the straight-line method over the estimated useful lives of the assets as follows:

Building and improvements	5-50
Machinery and equipment	3-20
Transportation equipment	3-7
Furniture and fixtures	3-20
Aqueduct and appurtenances	5-75

Costs of preliminary surveys, design and other investigations which are related to proposed construction are deferred and included in construction in progress until the projects are placed in service, at which time they are depreciated over their useful lives. The cost of discontinued projects is charged to expense in the year the decision is made to discontinue the project.

Leases

The District is the lessor for noncancellable leases for various land leases for cell towers. The District recognizes a lease receivable and a deferred inflow of resources in the financial statements.

At commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses their incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Bond Issuance Costs, Bond Discounts, and Bond Premiums

Costs incurred for bond issuance are expensed as incurred. Costs incurred for bond discounts and bond premiums are amortized over the term of the related bonds using a method approximating the effective interest method.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

*Use of Estimates in the Preparation of Financial Statements*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

*Deferred Outflows/Inflows of Resources*

In addition to assets, financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports deferred charges on bond refundings and pensions as deferred outflows of resources on the accompanying statement of net position.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred charges on bond refundings, property taxes levied for future year, leases as required by GASB 87, and pensions as deferred inflows of resources on the accompanying statement of net position.

*Classification of Revenue*

- *Operating revenues* - Operating revenues include activities that have the characteristics of exchange transactions such as water sales revenue. Revenue from water sales is recorded at the stated wholesale water rate. Water usage is measured by flow meters located throughout the system.
- *Non-operating revenues* - Non-operating revenues include activities that have the characteristics of non-exchange transactions and other revenue sources that are defined as non-operating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting* and GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. Examples of non-operating revenues include property tax revenues, special assessments, grant funding, interest income, and gain or loss on sale of assets.

Property tax revenue is collected and remitted by the Salt Lake County Treasurer as an agent for the District. Utah statutes establish the process by which taxes are levied and collected. Property values are assessed as of January 1 of the year in which they are due. September 1 is the levy date with a due date of November 30. Delinquent taxes are subject to a two percent penalty, with a \$10 minimum penalty. If delinquent taxes and penalties are not paid by January 15 of the following year, these delinquent taxes, including penalties, are subject to an interest charge at a rate equal to the federal discount rate, and the interest period is from January 1 until the date paid. If on March 15 following the lapse of five years from the date when the property taxes became delinquent, the taxes remain delinquent, the County Treasurer advertises and sells the property at a tax sale.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Classification of Net Position:

- *Net investment in capital assets* - This component of net position consists of the District's total investment in capital assets, net of accumulated depreciation, reduced by the outstanding debt obligations related to those assets. To the extent debt has been incurred, but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.
- *Restricted* - This component of net position consists of assets with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- *Unrestricted* - This component of net position consists of assets that do not meet the definition of "restricted" or "net investment in capital assets".

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. All general liability, real property, and vehicles are insured through commercial policies. The District has established an insurance/contingency reserve (\$2,000,000) to fund deductibles on the commercial policies. In addition the District carries workers' compensation and requires employer's liability coverage. The amount of settlements did not exceed insurance coverage for the past three years for all policies.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) including additions to and deductions from URS's fiduciary net position, have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles and in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2024 and 2023:

- Corporate bonds of \$13,484,202 and \$8,650,884 are valued using matrix pricing models and discounted cash flows (Level 2) as of June 30, 2024 and 2023, respectively.
- International bonds of \$749,921 and \$744,480 are valued using matrix pricing models and discounted cash flows (Level 2) as of June 30, 2024 and 2023, respectively.
- U.S. obligations of \$13,618,331 and \$17,644,228 are valued using matrix pricing models and discounted cash flows (Level 2) as of June 30, 2024 and 2023, respectively.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Government agencies of \$2,466,598 and \$2,156,557 are valued using matrix pricing models and discounted cash flows (Level 2) as of June 30, 2024 and 2023, respectively.

There were no changes in the valuation techniques used to determine the fair value of these financial instruments during the fiscal years ended June 30, 2024 and 2023.

Recent Accounting Pronouncements

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. GASB 101 requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The effective date of GASB 101 is for fiscal years beginning after December 15, 2023. The District has adopted this standard beginning July 1, 2024.

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS

Cash and cash equivalents consisted of the following as of June 30, 2024 and 2023:

	2024	2023
Unrestricted:		
Insurance/contingency reserve	\$ 2,000,000	\$ 2,000,000
Interest rate stabilization reserve	-	3,284,866
Capital projects reserve	10,000,000	16,444,144
Aquifer storage and recovery	292,809	4,460,487
Operations and maintenance	12,554,838	4,567,291
PTIF	1,373,078	1,373,078
Total unrestricted cash and cash equivalents	\$ 26,220,725	\$ 32,129,866
Restricted:		
Bond accounts	\$ 52,207,747	\$ 13,779,871
Operations and maintenance reserve	7,123,302	6,760,248
Renewal and replacement	650,000	650,000
150th South pipeline agreement	39,735	37,719
Jordan Valley WTP O&M agreement	20,000	20,000
Jordan aqueduct repayment contract	48,437	45,979
Total restricted cash and cash equivalents	60,089,221	21,293,817
Total cash and cash equivalents	\$ 86,309,946	\$ 53,423,683

Deposits

Deposits and investments for local governments are governed by the Utah Money Management Act (Utah Code Annotated, Title 51, Chapter 7, "the Act") and by rules of the Utah Money Management Council ("the Council"). Following are discussions of the District's exposure to various risks related to its cash management activities.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. The Act requires all deposits of local government to be in a qualified depository, defined as any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by the Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Council.

As of June 30, 2024 and 2023, the District's deposits had bank balances of \$1,336,263 and \$4,964,790, respectively, which are held in qualified depositories. Because these funds are held in a daily sweep account, they are not covered by federal depository insurance, and all balances are uncollateralized.

Credit Risk

Credit risk is the risk that the counterparty to an investment will not fulfill its obligations. The District's policy for limiting the credit risk of investments is to comply with the Money Management Act. The District is authorized to invest in the PTIF, an external pooled investment fund managed by the Utah State Treasurer and subject to the Act and Money Management Council requirements. The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Act. The Act established the Money Management Council, which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses - net of administration fees of the PTIF, are allocated based upon the participant's average daily balance. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares. For the years ended June 30, 2024 and 2023, the District had funds of \$50,226,413 and \$49,724,836, respectively, with the PTIF. The entire balance had a maturity of less than one year. The PTIF pool has not been rated.

As of June 30, 2024 and 2023, the District has \$33,033,802 and \$0, respectively, of bond funds that are held in a savings account with a local bank. A majority of these funds are not covered by FDIC limits.

Interest Rate Risk

Interest rate risk is the potential for investment losses that result from a change in interest rates which will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by adhering to the Money Management Act. The Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The District's investment policy specifies that all investments will be sufficiently liquid to enable the District to meet all operating requirements which might be reasonably anticipated.

The Act authorizes investments in both negotiable and nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Services or Standard & Poor's; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; obligations, other than mortgage derivative products, issued by U.S. government sponsored enterprises (U.S. Agencies) such as the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (Freddie Mac), Federal National Mortgage Association (Fannie Mae), and Student Loan Marketing Association (Sallie Mae); bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; and shares or certificates in a money market mutual fund as defined in the Act.

**Years Ended June 30, 2024 and 2023**

NOTE 3 - NET POSITION

Net position is restricted by provisions of the bond resolutions adopted by the District (Note 5) as follows:

Amounts restricted for revenue bond debt service - On April 29, 2002, the District adopted a master resolution providing for the issuance of water revenue bonds ("2002 Bond Resolution") which requires that a debt service account ("Bond Fund") be maintained, at minimum, that is equal to the principal and interest installment due within the fiscal year on the outstanding revenue bonds.

Amounts restricted for costs of construction projects - The 2002 Bond Resolution requires that a reserve be established or bond proceeds restricted to the related construction projects. Any excess funds shall be applied to the payment of principal and interest on the bonds when due.

Amounts restricted for renewal and replacement - The 2002 Bond Resolution requires that an initial renewal and replacement reserve of \$650,000 be established but the reserve may be increased or decreased from time to time by a supplemental resolution. In the event a deficiency arises in the amounts restricted for the Bond Fund, monies in the renewal and replacement reserve shall be transferred to satisfy the deficiency.

Use of restricted assets - When both restricted and unrestricted resources are available for use, it is the District's practice to use unrestricted resources first, then restricted resources as they are needed.

As of June 30, 2024 and 2023, the restricted component of net position is as follows:

	2024	2023
Future debt service	\$ 52,207,747	\$ 13,779,871
Operations and maintenance (master bond resolution requirement)	7,123,302	6,760,248
Renewal and replacement	650,000	650,000
150th South pipeline agreement	39,735	37,719
Jordan Valley WTP O&M agreement	20,000	20,000
Jordan aqueduct repayment contract	48,437	45,979
Total	\$ 60,089,221	\$ 21,293,817

As of June 30, 2024 and 2023, the unrestricted component of net position is as follows:

	2024	2023
Committed		
Insurance/contingency reserve	\$ 2,000,000	\$ 2,000,000
Interest rate stabilization reserve	-	3,284,866
Capital projects reserve	10,000,000	16,444,144
Aquifer storage and recovery reserve	292,809	4,460,487
Uncommitted	5,385,024	28,154,299
Total	\$ 17,677,833	\$ 54,343,796

<b>Total</b>	<b>\$ 285,640,554</b>	<b>\$ 841,947</b>	<b>\$ (15,150,677)</b>	<b>\$ 271,331,824</b>	<b>\$ 14,126,200</b>

Bond refundings - During fiscal year 2016, the District issued \$59,200,000 of bonds (series 2016A) to refund \$60,320,000 of outstanding bonds (series 2009A). The series 2016A bonds mature in 2031 and have a rating from the S&P and Fitch of AA+. GASB requires that the difference between the reacquisition price and the net carrying amount of the old debt be deferred and amortized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or life of the new debt, whichever is shorter. The difference between the reacquisition price and the net carrying amount of the old debt is comprised of unamortized premiums/discounts, and unamortized termination costs of the refunded bonds, which totaled \$6,293,980 at the date of refunding. The refunding was done in order to reduce total debt service payments in the future and resulted in an estimated economic gain of \$9,153,445.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 5 - LONG-TERM LIABILITIES (CONTINUED)

During fiscal year 2021, the District issued \$67,415,000 of bonds (series 2020A) to partially refund \$18,380,000 of outstanding bonds (series 2012A), and to refund \$46,755,000 of outstanding bonds (series 2019A). The series 2020A bonds mature in fiscal year 2037 and have a rating from S&P of AA+. The difference between the reacquisition price and the net carrying amount of the old debt is comprised of unamortized premiums/discounts, and unamortized termination costs of the refunded bonds, which totaled \$3,741,333 at the date of refunding. The refunding was done in order to reduce total debt service payments in the future and resulted in an estimated economic gain of \$9,395,284.

During fiscal year 2021, the District issued \$43,340,000 of bonds (series 2021A) and \$12,240,000 (series 2021B) to refund \$58,800,000 of outstanding bonds (series 2011A). The series 2021A bonds mature in fiscal year 2036 and have a rating from S&P of AA+ while the series 2021B bonds mature in fiscal year 2030 and have a rating from S&P of AA+. The difference between the reacquisition price and the net carrying amount of the old debt is comprised of unamortized premiums/discounts, and unamortized termination costs of the refunded bonds, which totaled \$2,696,134 at the date of refunding. The refunding was done in order to reduce total debt service payments in the future and resulted in an estimated economic gain of \$1,134,279.

During fiscal year 2024, the District issued \$22,000,000 of taxable water revenue bonds (series 2024A) and \$33,000,000 of water revenue bonds (series 2024B). Both series 2024A and 2024B bonds mature in fiscal year 2050 and have ratings from S&P of AA+. The District received all of the bond proceeds for the 2024B bonds, but did not receive all of the bond proceeds for the 2024A bonds as of June 30, 2024, as a portion of those proceeds are set to be received upon the District achieving specific spend milestones per the bond agreements. As of June 30, 2024, the District recorded \$17,493,000 in bond proceeds receivable related to the 2024A bonds.

Bond Covenants - The District has certain covenants associated with its bonds payable, which are more fully described in the 2002 Bond Resolution (as defined in Note 3). Among these covenants is a requirement that the District maintain net revenues, together with other available funds, that are at least equal to the sum of (1) 115% of the aggregate debt service for the forthcoming fiscal year, (2) 100% of the repayment obligations, if any, which will be due and payable during the forthcoming fiscal year, and (3) 100% of the amounts, if any, required to be deposited into the debt service reserve account during the forthcoming fiscal year.

Pledge of the Bond Resolutions - The 2002 Bond Resolution provides that the Bonds shall be special obligations of the District payable solely from and secured by: (i) the proceeds of sale of the Bonds; (ii) the revenues, and (iii) all funds (other than the operation and maintenance fund and the rebate fund), including the investments, if any, thereof, subject to any required rebate of all or a portion of the earnings on such investments to the United States of America.

Funds required by the Bond Resolutions - The 2002 Bond Resolution requires that certain "funds" be established to account for the District's receipts and disbursements. Such "funds" are accounts within the District's records and are not separate funds or groups of self-balancing accounts. The amounts held in these funds are to be used for the purposes stipulated in the 2002 Bond Resolution.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 5 - LONG-TERM LIABILITIES (CONTINUED)

Water Rights Payable

Pursuant to repayment contracts, Central Utah Water Conservancy District (“CUWCD”) is repaying to United States, Department of the Interior, Bureau of Reclamation (“Reclamation”) reimbursable construction costs of the Municipal and Industrial (M&I) System of the Bonneville Unit of the Central Utah Project (the Bonneville Unit is referred to here as the “CUP”), together with interest. CUWCD is obligated to operate, maintain, repair and replace M&I System facilities. Conditioned on meeting its obligations under its repayment contract, CUWCD has a permanent right to the use of M&I System facilities and water rights for the benefit of CUWCD’s petitioners. Pursuant to a 1986 M&I System petition, the District is committed to pay to CUWCD a pro rata portion of CUWCD’s construction repayment obligation in return for a permanent right to the use of 20,000 acre feet of M&I System water annually.

The District’s repayment commitment as of June 30, 2024 and 2023 is \$65,366,400 and \$68,337,600, respectively. Future payments due on the commitment as of June 30 is shown below and is based on \$148.56 per acre foot:

Year Ending June 30,	Future Payment Commitments
2025	\$ 2,971,200
2026	2,971,200
2027	2,971,200
2028	2,971,200
2029	2,971,200
2030-2034	14,856,000
2035-2039	14,856,000
2040-2044	14,856,000
2045-2049	5,942,400
Total	\$ 65,366,400

NOTE 6 - RETIREMENT PLANS

General information about the Pension Plan

Plan Description: Eligible plan participants are provided with pensions through the Utah Retirement Systems. Participation in Utah Retirement Systems are comprised of the following Pension Trust Funds:

Defined Benefit Plans

- Public Employees Noncontributory Retirement System (Noncontributory System) is a multiple-employer, cost sharing, retirement system.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System) is a multiple-employer cost sharing public employee retirement system.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 East 200 South, Salt Lake City, Utah 84102 or visiting the website: [www.urs.org/general/publications](http://www.urs.org/general/publications).

Summary of Benefits by System

Benefits provided: URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

System	Final Average Salary	Years of Service Required and/or Age Eligible for Benefit	Benefit Percent per Year of Service	COLA**
Noncontributory System	Highest 3 years	30 yrs, any age 25 yrs, any age* 20 yrs, age 60* 10 yrs, age 62* 4 yrs, age 65	2.0% per year all years	Up to 4%
Tier 2 Public Employees System	Highest 5 years	35 yrs, any age 20 yrs, age 60* 10 yrs, age 62* 4 yrs, age 65	1.5% per year all years	Up to 2.5%

\* Actuarial reductions are applied.

\*\* All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

Contribution Rate Summary

As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable), is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability.

Contribution rates as of June 30, 2024 are as follows:

Noncontributory System - 15 Local Government	Tier 1 - DB System	Tier 2 - DB Hybrid System	Tier 2 - 401(k) Option
Tier 2 Fund	N/A	111	211
Employee	-	-	-
Employer	17.97%	16.01%	6.19%
ER 401(k)	-	0.18%	10.00%

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans. For the fiscal year ended June 30, 2024, the employer and employee contributions to the Systems were as follows:

System	Employer Contributions	Employee Contributions
Noncontributory System	\$ 720,319	\$ -
Tier 2 Public Employees System	368,457	-
Tier 2 DC Only System	15,691	-
Total Contributions	\$ 1,104,467	\$ -

Contributions reported are the URS Board approved required contributions by System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

Combined Pension Assets, Liabilities, Expense, and Deferred Outflows and Inflows of Resources Relating to Pensions

At June 30, 2024, the District reported a net pension asset of \$0 and a net pension liability of \$1,094,592.

Measurement Date: December 31, 2023	Net Pension Asset	Net Pension Liability
Noncontributory System	\$ -	\$ 947,942
Tier 2 Public Employees System	-	146,650
	\$ -	\$ 1,094,592

	Proportionate Share December 31, 2023	Proportionate Share December 31, 2022	Change (Decrease)
Noncontributory System	0.4086728%	0.4431258%	-0.0344530%
Tier 2 Public Employees System	0.0753447%	0.0762096%	-0.0008649%

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

Combined Pension Assets, Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The net pension asset and liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2023, and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended June 30, 2024, pension expense was \$870,955.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 710,731	\$ 2,402
Changes in assumptions	368,399	116
Net difference between projected and actual earnings on pension plan investments	324,823	-
Changes in proportion and differences between contributions and proportionate share of contributions	28,906	2,515
Contributions subsequent to the measurement date	546,039	-
Total	\$ 1,978,898	\$ 5,033

Deferred outflows of resources related to pensions of \$546,039 results from contributions made by the District prior to our fiscal year end, but subsequent to the measurement date of December 31, 2023.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources
2025	\$ 436,990
2026	412,452
2027	613,279
2028	(118,447)
2029	15,132
Thereafter	68,420

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

Noncontributory System Pension Expense, and Deferred Outflows and Inflows of Resources

For the year ended June 30, 2024, pension expense was \$679,502.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 663,761	\$ -
Changes in assumptions	284,458	-
Net difference between projected and actual earnings on pension plan investments	308,263	-
Changes in proportion and differences between contributions and proportionate share of contributions	9,694	-
Contributions subsequent to the measurement date	347,518	-
Total	\$ 1,613,694	\$ -

Deferred outflows of resources related to pensions of \$347,518 results from contributions made by the District prior to our fiscal year end, but subsequent to the measurement date of December 31, 2023.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources
2025	\$ 423,235
2026	392,857
2027	579,555
2028	(129,471)
2029	-
Thereafter	-

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

Tier 2 Public Employees System Pension Expense, and Deferred Outflows and Inflows of Resources

For the year ended June 30, 2024, pension expense was \$191,454.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 46,970	\$ 2,402
Changes in assumptions	83,941	116
Net difference between projected and actual earnings on pension plan investments	16,560	-
Changes in proportion and differences between contributions and proportionate share of contributions	19,212	2,515
Contributions subsequent to the measurement date	198,521	-
Total	\$ 365,204	\$ 5,033

Deferred outflows of resources related to pensions of \$198,521 results from contributions made by the District prior to our fiscal year end, but subsequent to the measurement date of December 31, 2023.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources
2025	\$ 13,755
2026	19,595
2027	33,724
2028	11,024
2029	15,132
Thereafter	68,420

Actuarial Assumptions

The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary Increases	3.5 - 9.5 percent, average, including inflation
Investment rate of return	6.85 percent, net of pension plan investment expense, including inflation

Mortality rates were adopted from an actuarial experience study dated January 1, 2023. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using the ultimate rates from the MP-2020 improvement scale using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

The actuarial assumptions used in the January 1, 2023, valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

The long-term expected rate of return on pension plan investments was determined using a building-block method, in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Expected Return Arithmetic Basis		
	Target Asset Allocation	Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return
Equity securities	35.00%	6.87%	2.40%
Debt securities	20.00%	1.54%	0.31%
Real assets	18.00%	5.43%	0.98%
Private equity	12.00%	9.80%	1.18%
Absolute return	15.00%	3.86%	0.58%
Cash and cash equivalents	0.00%	0.24%	0.00%
<b>TOTALS</b>	<b>100.00%</b>		<b>5.45%</b>
		<u>INFLATION</u>	<u>2.50%</u>
		<u>EXPECTED ARITHMETIC NOMINAL RETURN</u>	<u>7.95%</u>

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50%, and a real return of 4.35% that is net of investment expense.

Discount Rate

The discount rate used to measure the total pension liability was 6.85 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate, and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current, active, and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments, to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 6 - RETIREMENT PLANS (CONTINUED)

Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.85 percent, as well as what the proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1.00 percentage point lower (5.85 percent) or 1.00 percentage point higher (7.85 percent) than the current rate:

System	1% Decrease (5.85%)	Discount Rate (6.85%)	1% Increase (7.85%)
Noncontributory System	\$ 4,919,773	\$ 947,942	\$ (2,378,196)
Tier 2 Public Employees System	503,867	146,650	(130,372)
Total	<u>\$ 5,423,640</u>	<u>\$ 1,094,592</u>	<u>\$ (2,508,568)</u>

Pension plan fiduciary net position: Detailed information about the fiduciary net position of the pension plans is available in the separately issued URS financial report.

NOTE 7 - DEFERRED COMPENSATION PLANS

Defined Contribution Savings Plans

The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401 (k), 457(b) and 408 of the Internal Revenue Code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

The District participates in the following Defined Contribution Savings Plans with URS:

- 401(k) Plan
- 457(b) Plan
- Roth IRA Plan
- Traditional IRA Plan

401(k) Plan

The District offers their full-time regular employees participation in a defined contribution plan created in accordance with Internal Revenue Code Section 401(k) (the "Plan"). The Plan is administered by URS. Employees may contribute from 1% to 100% of their annual salary up to a maximum of \$22,500 (\$30,000 for employees aged 50 or older) for 2023. The District contributed 100% of the first 3% contributed by the employee, up to a maximum of 3% of the covered payroll of employees who also participate in the retirement plan. During 2023 and 2022, all participants in the Plan also participated in the defined benefit plan of URS. The District is not legally obligated to contribute to the Plan, and any contribution made is at the discretion of the Board of Trustees. All employee and District contributions are fully vested at all times.

Contributions made by employees to the Plan were \$339,544, \$348,534, and \$269,195 for the fiscal years ended June 30, 2024, 2023 and 2022, respectively. Contributions made by the District to the Plan were \$195,403, \$172,405, and \$153,576 for the fiscal years ended June 30, 2024, 2023 and 2022, respectively.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 7 - DEFERRED COMPENSATION PLANS (CONTINUED)

457 and Roth IRA Plans

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457 and Roth IRA. The 457 and Roth IRA, administered by URS and available to all District full-time regular employees, permit an employee to defer a portion of their salary until future years. The deferred compensation is not available to employees or their beneficiaries until termination, retirement, death, or unforeseeable emergency.

The employer contribution to the 457 and Roth IRA was \$0 for each of the years ended June 30, 2024, 2023 and 2022. Employee contributions were \$102,137, \$125,101 and \$89,642 for the 457 Plan and for the Roth IRA plan were \$79,582, \$86,732 and \$83,980 for the years ended June 30, 2024, 2023 and 2022, respectively.

Traditional IRA Plan

Employee contributions for the Traditional IRA plan were \$670, \$650 and \$7,526 for the years ended June 30, 2024, 2023 and 2022, respectively. The employer contributions to the Traditional IRA plan was \$0 for the years ended June 30, 2024, 2023 and 2022.

The 401(k), 457, Roth IRA and Traditional IRA plans are included in a publicly available financial report that includes financial statements and required supplementary information. A copy of URS report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, Utah 84102 or by calling 1-800-365-8772.

NOTE 8 - COMMITMENTS AND CONTINGENT LIABILITIES

The District has a number of contracts which give the District certain permanent rights to the use of water, and permanent rights to water conveyance capacities, contingent upon the District meeting corresponding long-term commitments to repay to other entities certain incurred capital costs, as well as on-going operation, maintenance and repair costs relating to the facilities involved. These financial commitments are not secured by pledge of District taxes or future revenues, and are not legally collectable from District funds beyond available annual unencumbered budget appropriations of the District. Meeting these commitments, however, is important to the District maintaining the corresponding permanent water and capacity rights, and meeting the District's priority operation and maintenance obligations described in the 2002 Bond Resolution.

Provo River Project

The District's largest source of water by volume is the Deer Creek Division of the Provo River Project (the "PRP"), a project of the United States, Department of the Interior, Bureau of Reclamation ("Reclamation"). Pursuant to the terms of a 1936 Repayment Contract, the construction costs of the PRP are to be repaid to Reclamation by the Provo River Water Users Association (the "Association"). The Association is also obligated to operate, maintain, repair and replace PRP facilities consistent with the repayment contract and Reclamation rules and regulations. The Association fulfilled the repayment contract obligation as of June 30, 2024. The Association has a permanent right to the use of PRP facilities and water rights for the benefit of Association shareholders.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 8 - COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

PRP assessments

Under the terms of the District’s subscription agreements, the District is obligated to pay a pro rata per share portion of the operation, maintenance, repair, replacement and capital improvement costs of the PRP (other than the Provo River Aqueduct, discussed below). Contingent upon payment of assessments, the District is entitled to a permanent right to use PRP water as follows: a pro rata right to the use of all water made available by the Association annually up to a limit of one acre foot per share of stock; a pro rata right to holdover water in Deer Creek Reservoir for future use on a space available basis; a pro rata right to extra allotment water in wet years when it is available as determined by the Secretary of the Interior. If the District fails to timely pay Association assessments, project water may be withheld by the Association. Any delinquent assessments may be collected by the Association via the advertised public auction of the number of the District’s Association shares necessary to generate enough revenue to pay then delinquent assessments.

PRP general assessment: The Association assesses a general assessment for the purpose of paying the costs and expenses of operation, maintenance, capital improvement rehabilitation, upgrades, and other improvements related to the facilities of the Association and the Deer Creek Division of the Provo River Project. As of June 30, 2024 and 2023, payments made by the District for the general assessment were \$2,406,672 (38.88 per share) and \$2,261,207 (\$36.53 per share), respectively.

Provo River Aqueduct

As a part of the PRP, Reclamation purchased a private canal commonly referred to as the Provo Reservoir Canal. The Provo Reservoir Canal was enlarged and improved as a part of the PRP. In 2010, the District agreed to participate in the Provo Reservoir Canal Enclosure Project (the “PRCEP”). The PRCEP involved enclosing the canal in a large steel pipe with greater capacity, now known as the Provo River Aqueduct. The PRCEP involved the participation of Reclamation, the District, the Association, CUWCD, Jordan Valley Water Conservancy District (“JVWCD”), and Provo Reservoir Water Users Company. Under the District’s amended subscription agreements the District is entitled to a permanent aqueduct capacity right of 187 cubic feet per second (cfs), conditioned on the District paying agreed capital, operation and maintenance costs. The District is obligated to pay to the Association 187/302ths of the Association’s share of the PRCEP construction costs. Those payments are expected to be as follows:

Year Ending June 30,	Assessment Payments
2025	\$ 1,247,000
2026	1,247,000
2027	1,247,000
2028	1,247,000
2029	1,247,000
2030-2034	6,235,000
2035-2039	1,247,000
Total	\$ 13,717,000

The District is obligated to pay the Association aqueduct maintenance assessments representing 187/302ths of the Association’s share of the aqueduct maintenance costs. The District is obligated to pay a pro rata portion of the Association’s share of the operation costs based on volume of water carried in the aqueduct annually. The District payments for Provo River Aqueduct operation and maintenance costs to the Association were \$349,516 and \$231,770 for the years ended June 30, 2024 and 2023, respectively.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 8 - COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

Central Utah Project Municipal and Industrial (M&I) System Petition

The District also pays to CUWCD a pro rata, per volume of right to use M&I System water, of CUWCD's M&I System operation, maintenance, repair, replacement, and reserve costs as determined by CUWCD's Board of Trustees. The District's commitments for payments to CUWCD as described do not vary depending upon the amount of M&I System water the District actually takes or uses. District payments for M&I System operation, maintenance, repair, replacement and reserve costs to CUWCD for the years ended June 30, 2024 and 2023 were \$1,501,500 (\$65.00 per acre foot) and \$1,386,000 (\$60.00 per acre foot), respectively. The petition and applicable state statute describe CUWCD's ability to tax properties benefited by the District's petition to cover any failure of the District to meet its commitments. While not described in the petition, CUWCD may also be entitled to withhold M&I System water upon any District failure to meet its commitments under the petition. CUWCD repayment obligations to Reclamation, and the District's repayment commitment to CUWCD, are subject to a final Reclamation allocation of construction costs, and are dependent upon a conditional statutory cap on CUWCD's repayment obligation.

Jordan Aqueduct (JA) System

The District is entitled to 2/7ths of the JA system capacity (including the JA, the Jordan Valley Water Treatment Plant, and the JA Terminal Reservoir). Pursuant to contract, the JA system is operated, maintained, repaired and replaced by JWCD at the direction of committees to which the District appoints members. Failure of the District to meet its commitments relating to JA could result in capacity being withheld. The District is obligated to pay for 2/7ths of the capital improvement costs related to the JA system. The District payments for capital improvements were \$790,469 and \$3,670,231 for the years ended June 30, 2024 and 2023, respectively. The District is obligated to pay maintenance costs pro rata based on capacity. The District is also obligated to pay a pro rata portion of the operation costs based on volume of water conveyed. The District payments for operation and maintenance costs were \$556,911 and \$533,051 for the years ended June 30, 2024 and 2023, respectively.

150th South Pipeline

The District is entitled to 50% of the 150th South Pipeline capacity. Pursuant to contract, the 150th South Pipeline is operated, maintained, repaired and replaced by JWCD at the direction of a committee to which the District appoints members. Failure of the District to meet its commitments relating to the 150th South Pipeline could result in capacity being withheld. The District is obligated to pay 50% of the capital improvement costs related to the 150th South Pipeline. The District payments for capital improvements were \$45,029 and \$11,407 for the years ended June 30, 2024 and 2023, respectively. The District is obligated to pay maintenance costs pro rata based on capacity. The District is also obligated to pay a pro rata portion of the operation costs based on volume of water conveyed. The District payments for operation and maintenance costs were \$40,280 and \$37,199 for the years ended June 30, 2024 and 2023, respectively.

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 8 - COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

Ontario Drain Tunnel

The District entered into a separate agreement with Sandy City for the District to purchase water rights in the Ontario Drain Tunnel. The rights are owned by the District and were purchased using water revenue bond proceeds. As part of the agreement, Sandy City will pay special assessments to cover the portion of the bond payments corresponding to the purchase. The expected flow of cash from these assessments is as follows:

Year Ending June 30,	Assessment Payments
2025	\$ 882,620
2026	910,352
2027	969,854
2028	1,009,443
2029	1,046,569
2030-2031	2,189,234
Total	\$ 7,008,072

Salt Lake City and Sandy City Assessments

The District has an agreement with Salt Lake City and Sandy City to pay special assessments related to capital improvements for the cities' respective share of capacity in the Point of the Mountain Water Treatment Plant, Point of the Mountain Aqueduct, and improvements to Little Cottonwood Water Treatment Plant. The expected flow of cash from these assessments is as follows:

Year Ending June 30,	Assessment Payments
2025	\$ 11,232,214
2026	11,232,214
2027	11,232,214
2028	11,232,214
2029	11,232,214
2030-2034	56,161,070
2035-2039	5,616,107
Total	\$ 117,938,247

Major Customers

The District has two major customers that make up 96.45% and 95.04% of the District's water sales for 2024 and 2023, respectively. For the years ended June 30, 2024 and 2023, the percentages of water sales are as follows:

	2024	2023
Salt Lake City	69.44%	68.43%
Sandy City	27.01%	26.61%
Total	96.45%	95.04%

**Metropolitan Water District of Salt Lake & Sandy**  
**Notes to Financial Statements**  
**Years Ended June 30, 2024 and 2023**

NOTE 8 - COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

Agreement with Central Utah Water Conservancy District

The District has an agreement with CUWCD regarding the Point of the Mountain Water Treatment Plant ("POMWTP"). CUWCD has possible future need for 30 million gallons per day ("mgd") of the raw water conveyance capacity. Accordingly, CUWCD has asked the District to reserve up to 30 mgd of conveyance capacity. CUWCD agreed to pay, and has paid, the District 30/151ths (19.868%) of the costs related to land acquisition, development and the cost of design and construction of the treatment plant, which share totaled \$10,000,000. The agreement states that if in the future CUWCD determines that it does not require the use of the described capacities, the money paid by CUWCD for its share of the costs will be refunded by the District to CUWCD, without interest, as further outlined in the agreement. The agreement had a termination date of December 31, 2020. However, CUWCD requested an extension of time to exercise their 30 mgd capacity, thereby postponing the District's interest-free repayment obligation. The District and CUWCD entered into a new agreement in January 2022 that remains in effect until January 31, 2032. The District will continue to reserve 30 mgd of conveyance capacity for CUWCD's future use. CUWCD may at any time during the term of the agreement determine that it will use the excess POMWTP capacities by providing written notice to the District.

In accordance with accounting standards, management has not recorded a liability on the accompanying financial statements but has disclosed the nature and possible range of the contingency. Per the agreement, repayment would be made annually in the amount of \$2,000,000 over a five year period. If repayment were to occur, the District would make an assessment to its member cities equal to the obligation. Management's conclusions are based on facts and circumstances that existed as of the date these financial statements were issued.

NOTE 9 - LEASES - LESSOR ACTIVITIES

The District has over many years entered into various telecom tower lease agreements with some ongoing since 2006. In these leases the District leases land to the telecommunication providers. As of June 30, 2024 the District has two active leases, with the most recent agreement beginning in 2018. The agreements have end dates in 2030 and 2032. Annual payments to the District range from \$29,010 to \$39,650 with interest rates at 4% on each lease (used as the discount rates). The District recognized \$62,477 and \$58,828, respectively, in income from these leases and \$2,603 and \$2,451, respectively, in interest income for the years ended June 30, 2024 and 2023, respectively.

NOTE 10 - SUBSEQUENT EVENTS

The District evaluated all events or transactions that occurred after June 30, 2024 through September \_\_, 2024, the date the financial statements were available to be issued.

NOTE 1 - CHANGES IN ASSUMPTIONS - UTAH RETIREMENT SYSTEMS

Assumptions for plan year 2023 include updates to the mortality improvement assumption, salary increase assumption, disability incidence assumption, assumed retirement rates, and assumed termination rates, as recommended with the January 1, 2023 actuarial experience study.

Assumptions for plan year 2022 remain unchanged from the 2021 plan year.

Amounts reported in plan year 2021 reflect the following assumption changes adopted from the January 1, 2021 valuation:

- The investment return assumption was decreased from 6.95% to 6.85%.

Amounts reported in plan year 2020 reflect the following assumption changes adopted from the January 1, 2020 valuation:

- The payroll growth assumption decreased from 3.00% to 2.90%.
- Other assumptions that were modified: retirement rates, termination rates, disability rates, rate of salary increase, and pre and post retirement mortality tables.

Assumptions for plan years 2019 and 2018 remain unchanged from the 2017 plan year.

Amounts reported in plan year 2017 reflect the following assumption changes adopted from the January 1, 2017 valuation:

- The investment return assumption was decreased from 7.20% to 6.95%.
- The inflation assumption decreased from 2.60% to 2.50%.
- The life expectancy assumption increased for most groups.
- The wage inflation assumption decreased from 3.35% to 3.25%.
- The payroll growth assumption decreased from 3.10% to 3.00%.

Amounts reported in plan year 2016 reflect the following assumption changes adopted from the January 1, 2016 valuation:

- The investment return assumption was decreased from 7.50% to 7.20%.
- The inflation assumption decreased from 2.75% to 2.60%.
- Both the payroll growth and wage inflation assumption were decreased by 0.15%.

Amounts reported in plan year 2015 reflect the following assumption changes adopted from the January 1, 2015 valuation:

- The wage inflation assumption for all employee groups was decreased from 3.75% to 3.50%.
- The payroll growth assumption was decreased from 3.50% to 3.25%.
- Other assumptions that were modified: rate of salary increases, post retirement mortality, and certain demographics.

**METROPOLITAN WATER DISTRICT OF SALT LAKE & SANDY**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

---

**NOTE A – BASIS FOR PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Metropolitan Water District of Salt Lake & Sandy (the District) under programs of the federal government for the year ended June 30, 2024. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in financial position, or cash flows of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Independent Auditor's Report on Internal Control over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards*

Board of Trustees  
Metropolitan Water District of Salt Lake & Sandy

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Metropolitan Water District of Salt Lake & Sandy (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents, and have issued our report thereon dated October 1, 2024.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each  
Major Program and Report on Internal Control Over Compliance;

Board of Trustees  
Metropolitan Water District of Salt Lake & Sandy

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Program***

We have audited Metropolitan Water District of Salt Lake & Sandy's (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Metropolitan Water District of Salt Lake & Sandy complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether the noncompliance with compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in

internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

No matters were reported.

Independent Auditor's Report on Compliance  
and Report on Internal Control over Compliance  
Required by the *State Compliance Audit Guide*

Board of Trustees  
Metropolitan Water District of Salt Lake & Sandy

**Report on Compliance**

***Opinion on Compliance***

We have audited Metropolitan Water District of Salt Lake & Sandy's (the District) compliance with the following applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, for the year ended June 30, 2024:

- Budgetary Compliance
- Fund Balance
- Fraud Risk Assessment
- Special and Local Special Service District Board Members
- Public Treasurer's Bond

In our opinion, Metropolitan Water District of Salt Lake & Sandy complied, in all material respects, with the state compliance requirements referred to above for the year ended June 30, 2024.

***Basis for Opinion on Compliance***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor. Our responsibilities under those standards and the *State Compliance Audit Guide* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the state compliance requirements referred to above.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the *State Compliance Audit Guide* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the *State Compliance Audit Guide* as a whole

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *State Compliance Audit Guide*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *State Compliance Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in

internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Metropolitan Water District of Salt Lake & Sandy  
Board Meeting Information  
Last Update: October 7, 2024

**Agenda Item:** Reporting on internal audit

**Objective:** Review findings of FY2024 Internal audit.

**Background:** The Office of the State Auditor recommends that entities have a formal internal audit function. The District's accounting consultant, WSRP, was tasked to perform an internal control testing procedures covering the time period July 1, 2022 to June 30, 2023.

The scope of these services is more in-depth than an external audit and is not meant to replace the work of an external audit. The work includes identifying key controls or controls that are key to preventing fraud and errors. The controls were tested with recommendations on improvement included in a summary report (see attached report).

**Committee Activity:** The Finance Committee reviewed the internal audit report and the recommendations for improvement during the October 1, 2024 committee meeting.

**Recommendation:** Reporting item only.

# Welcome

October 1, 2024

Members of the Board of Trustees

Metropolitan Water District of Salt Lake & Sandy

We are pleased to communicate with you regarding matters related to the internal control procedures performed over the Metropolitan Water District of Salt Lake & Sandy (the “District”).

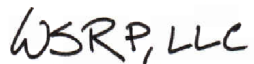

Our internal control testing procedures covered the period from July 1, 2022, to June 30, 2023.

The scope of our procedures over internal controls was more detailed and in-depth than an external audit. It is not meant to replace the work of external auditors. We obtained an understanding of the design and implementation of internal controls. From there we identified key controls or controls that are key to preventing fraud and errors. We tested those key controls, and we have included in this report our recommendations to management on how to improve any controls that we noted findings or areas of improvement.

This communication is intended to elaborate on the testing procedures, findings and any recommendations that we have for the Board of Trustees to consider.

Subsequent to our report, management added additional procedures to control #19 to include a lockbox for checks to be processed, and they have limited it to only be accessed by applicable personnel.

Respectfully,

WSRP, LLC

# Executive Summary

# Executive Summary

This summary provides an overview of the internal control procedures performed for the District for the period from July 1, 2022, to June 30, 2023.

We entered into an agreement with the Metropolitan Water District of Salt Lake & Sandy management to perform internal control procedures for the District. We performed the internal control procedures in the following phases:

- Phase 1: Performed a detailed risk assessment of the District as determined by the General Manager. We worked with the General Manager to identify internal audit areas to test and document.
- Phase 2: Assessed the current state of internal controls and identified key financial reporting processes and planned the implementation.
- Phase 3: Design implementation and performed testing of internal controls.
- Phase 4: Report to the Board of Trustees and Management the results of our internal control related work.

# Summary of Risks and Controls

As part of our internal control procedures, we identified the following risks and controls of the District around its processes for the period from July 1, 2022, to June 30, 2023. For the purposes of our procedures, a risk is the possibility of a way that accounting information might be inaccurate and/or that if left unaddressed, might be a way fraud could be committed. None of these are meant to identify fraud, but only where it might be perpetrated. To address the risk, management has implemented internal controls that mitigate the risk. Below are the risks identified and the associated controls implemented:

Risk #	Cycle	Risk Description	Type	Control Description
1	Payroll	Risk that employees are getting paid more than the actual time worked.	Automatic	Employees enter their start and stop time for their hours on a company computer or on the mobile app on their phone. Supervisor approves their hours entered by the employee in Paylocity.
2	Payroll	Risk of fictitious employees existing.	Manual	The HR Manager prepares the payroll and Assistant General Manager reviews and approves the payroll. Once approved, Assistant General Manager submits the payroll to Paylocity (third party payroll provider) for processing.
3	Payroll	Risk of over/under-estimating pay increases to employment.	Manual	Employee, Supervisor (could be department manager), HR Manager and General Manager review and approve the pay increases. HR Manager enters the pay increases and General Manager reviews and approves. Information is uploaded to Paylocity and they will process. In addition, a budget for payroll increases created by the HR Manager with the assistance from Assistant General Manager. The District manages the employee performance evaluations, and based on performance and evaluations, determine amounts that will be paid.
4	Payroll	Risk that what was submitted to Paylocity amounts don't agree to the approved payroll.	Manual	Approved payroll amounts submitted to Paylocity and paid out are reconciled as part of the bank reconciliation process. The Accountant records payroll entries based on the Paylocity payroll reports and ensures amounts submitted to Paylocity are agreed to the bank statement. The Accountant also reviews line items in the Paylocity report agree to what was submitted, and are reflected appropriately in the records of the District.
5	Payroll	Risk that terminated employees' access is not properly removed from the system.	Automatic	The terminated employees' access to Paylocity is not revoked until the employees' last payroll is processed. Once the employees' last payroll is processed, the HR Manager terminates the employee from the system. The District has a termination checklist that has items that need to be addressed to terminate the employee from the system which are performed by the HR Manager.
6	Payroll	Risk that the paid-time-off (PTO) requested by the employee is not properly reviewed or tracked.	Automatic	In order to get PTO, employees are required to have the requested time approved by their supervisor. Payment for the PTO taken is tracked and paid based on amount of hours of PTO they have accrued. If the employee has exhausted all accrued hours available for PTO, there is no additional payment made for time off taken. The Payroll system tracks PTO and will notify management of any negative time for employees' to ensure no payments are made for employees with deficit or zero accrued hours.
7	Payroll	Risk that PTO is not accrued properly.	Automatic	Paylocity tracks the accrued PTO, however, there is a lack of controls to review the accuracy of the accrued amounts as well as to ensure the PTO policy is adhered to. It is noted the Accountant records the PTO entries for the accrual each payroll and if there are significant variances to what is expected, the Accountant will review in more detail.
8	Payroll	Risk of employees abusing policy for lunch and other breaks by taking more time than is allowed.	Manual	If an employee takes a longer lunch or other break than allowed by policy, the District has not historically penalized an employee. Currently the District will have the supervisor/manager to review and discuss the overage with staff.
9	Payroll	Risk of accuracy of accrual of sick hours.		It is noted that the District does not record the sick accrual each pay period. As of the period being reviewed, the District is only recording the accrual for sick hours for retirement eligible and retired employees through COBRA.

# Summary of Risks and Controls (continued)

Risk #	Cycle	Risk Description	Type	Control Description
10	Payroll	Risk of inaccurate amount for individual employment benefit plans.	Manual	Manually checked by the HR Manager to determine amounts for employees that are submitted every other week for the Utah Retirement Systems (URS) plan are accurate and complete. Also the URS is audited every 2-3 years and results of those audits are provide to Management of the District for their review.
11	Cash Receipts	Risk that rate increases for member cities are not properly approved by supervisory personnel.	Manual	Rate increases for member cities are approved by the Board of Trustees at the annual budget meeting. After the rate increase has been determined, all member cities that will be impacted, will be notified in writing.
12	Cash Receipts	Risk excess water is sold to external parties without proper approval.	Manual	Only surplus water is sold to outside entities. Each time that happens, there is a required approval by the Board of Trustees. The Board of Trustees only approves surplus water sales after confirming with the member cities that they do not need the excess water.
13	Cash Receipts	Risk that cash receipts are not recorded properly.	Manual	Journal entries to record revenue into the general ledger are posted by the Accountant once a month at month end. The Executive Administrator records all the details for cash and checks received into the cash receipts journal. The information from the Executive Administrator is entered on a spreadsheet from the scans of checks received. ACH is then entered into the spreadsheet and reconciled monthly by the Accountant to the
14	Cash Receipts	Risk that bank balances are not reconciled on a monthly basis.	Manual	The Accountant prepares the bank reconciliation for the previous month once they get the bank statements. The HR Manager reviews the reconciliation and approves it.
15	Cash Receipts	Risk of accuracy of documenting incoming checks securely.	Manual	Check copies are received by the Executive Administrator. Checks are scanned and saved in the District's network drive, and the check is stamped and then provided to the Assistant General Manager or General Manager to be deposited within 3 days. The scans are then maintained and accumulated until the end of the month. Scans are emailed and backed up through the email system. The General Manager keeps a folder of
16	Cash Receipts	Accuracy of accounts receivable due to possibility of lost checks.	Manual	The Executive Administrator, who will receive checks, cannot modify accounts receivable in the system. For any balances in accounts receivable that are over 90 days due, the Accountant performs a review to determine the cause of the over due collection. Follow-up with customers is performed until payments have
17	Cash Receipts	Risk that checks collected will either be misplaced or misappropriated.	Manual	When a check is received, the check is potentially held by the District for up to 3 days. The Executive Administrator provides the check to General Manager who is responsible for depositing the check within 3 days.
18	Cash Receipts	Accuracy of ACH Recording and financial statement closing entries review.	Manual	On a monthly basis, the Accountant enters all ACH payments, and the HR Manager performs a review on the accuracy of those transactional postings. Related to the financial statement process, the Accountant prepares journal entries that are reviewed by the HR Manager. Once the entries are reviewed, the Accountant prepares the monthly financial statement reporting package and both the HR Manager and General Manager review. Once journal entries are reviewed and approved, the financial statement checklist is signed and initialed.

# Summary of Risks and Controls (continued)

Risk #	Cycle	Risk Description	Type	Control Description
19	Cash Receipts	Risk of no receipt of payment issued for hand delivered payments.	Manual	Cash can only be received at the District's office, and only by the Executive Administrator plus one other person. Checks received by employees off-site require 2 individuals to be present and are initialed by both employees. Receipts are only generated for cash collected and not for checks that are collected. Any checks mailed in are processed with the regular mail handling procedures.
20	Cash Receipts	The risk that the Entity does not have a reconciliation done by someone not receiving cash.	Manual	The Executive Administrator will receive the checks that are mailed in, and then they will process them for the General Manager to deposit.
21	Cash Disbursements	Risk that not all payments are entered by one person and then reviewed and approved by 1 or more different individuals prior to payment.	Manual	The Accountant checks that a Purchase Order (PO) is created and has been reviewed and approved prior to processing payments on invoices. Once the invoice and purchase order are in agreement, or determined that any exceptions have been resolved when comparing the PO to the invoice, the Accountant will ensure the PO and Invoice are included in the pay packet which is then reviewed by the HR Manager and the General Manager. The Accountant will mark invoices as they are paid to ensure duplicate payments are not made.
22	Cash Disbursements	Risk that not all payments are supported by an invoice or equivalent support.	Manual	All payments are either required to be supported by an invoice or equivalent documentation. One off items may not have either, but those are required to have other approvals prior to payment and fully documented prior to payments being made.
23	Cash Disbursements	Risk that employees are making unapproved payments above the established thresholds established by the District.	Manual	The current thresholds for approvals are as follows: Under \$1,000 supervisors have to approve. Managers from \$1,000 up to \$25,000. General Manager up to \$50,000. The board above \$50,000. Approvals are reviewed by the HR Manager and General Manager during the review of the pay packet. The check register, credit card transactions, and electronic payment transactions are reviewed by the Finance Committee on a quarterly basis. The Board of Trustees reviews transactions over \$10,000 on a monthly basis.
24	Cash Disbursements	Risk that bidding process is not conducted as prescribed in Chapter 6 of the District's Policies and Procedures (P&P).	Manual	Chapter 6 of P&P establishes when a competitive bid is required, and that follows the State of Utah's Procurement website. The General Manager will review the bids and determine the bids meet the specified requirements requested prior to deciding on whether or not to accept a bid. All bids for projects that the District will contract out over \$50,000 are prepared by a project manager and then approved by a department manager.
25	Cash Disbursements	Risk that unethical behavior is not identified and appropriately handled.	Manual	The board employs a whistle blower policy that employees can use to notify the board of any illegal or fraudulent activity.
26	Cash Disbursements	Risk that the approved vendors list is not regularly reviewed for any vendors that are not appropriate for the District.	Manual	There was no control identified around a formal review of the vendor list on a regular basis, nor any catalogue of engagement letters or agreements to validate that vendors are legitimate.

# Summary of Risks and Controls (continued)

Risk #	Cycle	Risk Description	Type	Control Description
27	Credit Card	Risk that credit cards are not authorized. Additional risk that the Finance Committee is not made aware immediately when a new credit card is issued.	Manual	Credit card's issued are approved by the General Manager. The Governing body (Finance Committee) knows who has credit cards as they review the list of open credit cards. There does not appear to be a control in place currently to require the General Manager to notify the Finance Committee when new cards are issued.
28	Credit Card	Risk that an independent review of credit card transactions does not take place.	Manual	All credit card transactions are approved by the supervisor of the credit card holder. The employee needs to submit an expense report to obtain approval from the supervisor. After receiving the approval the payment can be made. The Accountant reconciles the credit card reports on a monthly basis, and the credit card payments are also approved by the HR Manager and General Manager following the cash disbursements
29	Credit Card	Risk that credit cards will be used for personal use	Manual	With the reviews performed by supervisors of the credit card holder, this risk is mitigated as long as the supervisor is spending sufficient time reviewing the card to ensure no personal purchases are placed on the
30	Credit Card	Risk that credit cards are not stored properly to prevent misappropriation or dealing with losing the card.	Manual	WSRP noted that there is no formal policy for safeguarding credit cards
31	Travel	Risk that employees reimbursing travel expenses are not approved or are not recorded properly	Manual	Employees traveling must have a pre-approval for estimated costs and then the actual costs are also reviewed and approved to see if the district owes the individual money or if the person owes district. Employees have to attach receipts for the hotel and incidentals. Initial request has to be approved by General Manager and actual has to be reviewed by the manager. If the ending expense is greater or lesser than what
32	Travel	Risk that no consequences are established or the current consequences for abusing travel reimbursements are inadequate	Manual	It does not appear that there are established consequences for not adhering to travel guidelines. If the infringement was intentional they need to add the appropriate consequences.

# Key Controls Identified

Key controls are the primary procedures relied upon to mitigate risk and to prevent fraud. To determine the key controls for the District, we gained an understanding of the processes and controls in place per review of their policies and procedures, and per discussions with management. We judgmentally selected controls that would be critical to the District in mitigating the fraud risk. Key controls identified are as follows:

Risk #	Cycle	Risk Description	Type	Control Description
1	Payroll	Risk that employees are getting paid more than the actual time worked.	Automatic	Employees enter their start and stop time for their hours on a company computer or on the mobile app on their phone. Supervisor approves their hours entered by the employee in Paylocity.
4	Payroll	Risk that what was submitted to Paylocity amounts don't agree to the approved payroll.	Manual	Approved payroll amounts submitted to Paylocity and paid out are reconciled as part of the bank reconciliation process. The Accountant records payroll entries based on the Paylocity payroll reports and ensures amounts submitted to Paylocity are agreed to the bank statement. The Accountant also reviews line items in the Paylocity report agree to what was submitted, and are reflected appropriately in the records of the District.
17	Cash Receipts	Risk that checks collected will either be misplaced or misappropriated.	Manual	When a check is received, the check is potentially held by the District for up to 3 days. The Executive Administrator provides the check to General Manager who is responsible for depositing the check within 3 days.
21	Cash Disbursements	Risk that not all payments are entered by one person and then reviewed and approved by 1 or more different individuals prior to payment.	Manual	The Accountant checks that a Purchase Order (PO) is created and has been reviewed and approved prior to processing payments on invoices. Once the invoice and purchase order are in agreement, or determined that any exceptions have been resolved when comparing the PO to the invoice, the Accountant will ensure the PO and Invoice are included in the pay packet which is then reviewed by the HR Manager and the General Manager. The Accountant will mark invoices as they are paid to ensure duplicate payments are not made.
22	Cash Disbursements	Risk that not all payments are supported by an invoice or equivalent support.	Manual	All payments are either required to be supported by an invoice or equivalent documentation. One off items may not have either, but those are required to have other approvals prior to payment and fully documented prior to payments being made.
23	Cash Disbursements	Risk that employees are making unapproved payments above the established thresholds established by the District.	Manual	The current thresholds for approvals are as follows: Under \$1,000 supervisors have to approve. Managers from \$1,000 up to \$25,000. General Manager up to \$50,000. The board above \$50,000. Approvals are reviewed by the HR Manager and General Manager during the review of the pay packet. The check register, credit card transactions, and electronic payment transactions are reviewed by the Finance Committee on a quarterly basis. The Board of Trustees reviews transactions over \$10,000 on a monthly basis.
26	Cash Disbursements	Risk that the approved vendors list is not regularly reviewed for any vendors that are not appropriate for the District.	Manual	There was no control identified around a formal review of the vendor list on a regular basis, nor any catalogue of engagement letters or agreements to validate that vendors are legitimate.
28	Credit Card	Risk that an independent review of credit card transactions does not take place.	Manual	All credit card transactions are approved by the supervisor of the credit card holder. The employee needs to submit an expense report to obtain approval from the supervisor. After receiving the approval the payment can be made. The Accountant reconciles the credit card reports on a monthly basis, and the credit card payments are also approved by the HR Manager and General Manager following the cash disbursements cycle above.
29	Credit Card	Risk that credit cards will be used for personal use	Manual	With the reviews performed by supervisors of the credit card holder, this risk is mitigated as long as the supervisor is spending sufficient time reviewing the card to ensure no personal purchases are placed on the card and paid for by District.

# Testing Summary and Results

Risk #	Cycle	Control Description
1	Payroll	Employees enter their start and stop time for their hours on a company computer or on the mobile app on their phone. Supervisor approves their hours entered by the employee in Paylocity.
4	Payroll	Approved payroll amounts submitted to Paylocity and paid out are reconciled as part of the bank reconciliation process. The Accountant records payroll entries based on the Paylocity payroll reports and ensures amounts submitted to Paylocity are agreed to the bank statement. The Accountant also reviews line items in the Paylocity report agree to what was submitted, and are reflected appropriately in the records of the District.
17	Cash Receipts	When a check is received, the check is potentially held by the District for up to 3 days. The Executive Administrator provides the check to General Manager who is responsible for depositing the check within 3 days.
21	Cash Disbursements	The Accountant checks that a Purchase Order (PO) is created and has been reviewed and approved prior to processing payments on invoices. Once the invoice and purchase order are in agreement, or determined that any exceptions have been resolved when comparing the PO to the invoice, the Accountant will ensure the PO and Invoice are included in the pay packet which is then reviewed by the HR Manager and the General Manager. The Accountant will mark invoices as they are paid to ensure duplicate payments are not made.
22	Cash Disbursements	All payments are either required to be supported by an invoice or equivalent documentation. One off items may not have either, but those are required to have other approvals prior to payment and fully documented prior to payments being made.
23	Cash Disbursements	The current thresholds for approvals are as follows: Under \$1,000 supervisors have to approve. Managers from \$1,000 up to \$25,000. General Manager up to \$50,000. The board above \$50,000. Approvals are reviewed by the HR Manager and General Manager during the review of the pay packet. The check register, credit card transactions, and electronic payment transactions are reviewed by the Finance Committee on a quarterly basis. The Board of Trustees reviews transactions over \$10,000 on a monthly basis.
26	Cash Disbursements	There was no control identified around a formal review of the vendor list on a regular basis, nor any catalogue of engagement letters or agreements to validate that vendors are legitimate.
28	Credit Card	All credit card transactions are approved by the supervisor of the credit card holder. The employee needs to submit an expense report to obtain approval from the supervisor. After receiving the approval the payment can be made. The Accountant reconciles the credit card reports on a monthly basis, and the credit card payments are also approved by the HR Manager and General Manager following the cash disbursements cycle above.
29	Credit Card	With the reviews performed by supervisors of the credit card holder, this risk is mitigated as long as the supervisor is spending sufficient time reviewing the card to ensure no personal purchases are placed on the card and paid for by District.

# Summary of Communications and Recommendations to the Board of Trustees

# Summary of conclusions and recommendations

We have provided a summary to the Board of Trustees for the internal control procedures performed for the Metropolitan Water District of Salt Lake & Sandy for the period from July 1, 2022, to June 30, 2023. As part of our procedures, we have provided the results on the testing procedures above noting some exceptions and recommendations for improvement. These recommendations are not indicative of fraud, but rather indicate that the District has some controls which appear to not be operating effectively or some risks from their operations for which controls have not yet been implemented.

The following summarizes the findings from our control testing and their respective recommendations:

Risk #	Cycle	Control Description	Control Finding or other areas to improve on	Recommendation
17	Cash Receipts	When a check is received, the check is potentially held by the District for up to 3 days. The Executive Administrator provides the check to General Manager who is responsible for depositing the check within 3 days.	WSRP noted in our walkthrough of this control that the janitorial staff have access to the room where undeposited checks are stored.	We recommend that the check stock is kept under lock and key and only a certain members of Management have access. Currently the employees have access to obtain the received checks.
26	Cash Disbursements	There was no control identified around a formal review of the vendor list on a regular basis, nor any catalogue of engagement letters or agreements to validate that vendors are legitimate.	During our testing of the approved vendor list, it was noted that 3 vendors on the list are individuals who are either a retired employee or the spouse of a retired employees. In instances where there are these types of circumstances, the relationship should be documented and any review performed should be included in that documentation to determine there are no fraudulent transactions with those related parties.	We recommend at least quarterly reviews of the approved vendor list to ensure that the list only has current and actual vendors that the District does business with.

# Summary of conclusions and recommendations (continued)

Additionally, we identified items during our testing procedures that could be useful to the Board of Trustees' continued efforts to improve the control environment. We recommend that the District to implement the following procedures.

## ➤ Payroll:

- From inquiries, we learned the District does not have a way to follow up with employees that take longer lunch breaks than allowed. We recommend that the District implement a policy to ensure supervisors are being held accountable for ensuring their staff are not taking longer lunch breaks than allowed.
- From inquiries, we learned there is not formal review of PTO nor of sick hour accruals documented as a procedure. We did note that the Accountant does an informal analytical review of accrual. We recommend formalizing the process, and that the HR Manager should review adjustments in the accrual when employee hit the next milestone of 5 years, 10 years, etc. to ensure that the system is accurate.

## ➤ Credit Card:

- From inquiries, we learned that there is no timely requirement for the General Manager to notify the Finance Committee when a new credit card is issued. We recommend that the General Manager notify the Finance Committee within a week of issuing the new credit card.
- From inquiries, we learned that there is no safeguards to protect company credit cards from theft. We recommend that the District create a policy for credit card users to follow for keeping the credit cards issued to them in a safe place at all times.

Material discussed in this publication is meant to provide general information and should not be acted on without professional advice tailored to your needs.

**METROPOLITAN WATER DISTRICT**  
**Balance Sheet - Summary Comparisons**  
**As of July 31, 2024**

	7/31/24	6/30/24	Difference
<b>1 Accounts Receivable</b>	3,203,587	4,013,126	(809,539)

Explanation: As of June 30th, water payments from Sandy City for the prior month were outstanding, whereas they are current at the end of July.

	7/31/24	7/31/23	Difference
<b>1 Accounts Receivable</b>	3,203,587	5,093,982	(1,890,395)

Explanation: As of July 31, 2023, water payments from Salt Lake City for the prior month were outstanding, whereas they are current as of July 31, 2024.

	7/31/24	6/30/24	Difference
<b>7 Prepaid Expenses</b>	1,301,160	52,763	1,248,397

Explanation: The annual insurance premiums with Utah Local Governments Trust are paid at the beginning of the fiscal year and proportionately expensed throughout the year. This is the cause for the large increase from the prior month.

	7/31/24	7/31/23	Difference
<b>8 Operations &amp; Maintenance Fund</b>	17,850,025	9,109,188	8,740,837

Explanation: Most of this decrease in the cash balance over the last year can be attributed to increased spending toward capital projects, most of which has been dedicated to both the Managed Aquifer Recharge project and the Salt Lake Aqueduct Replacement - Cottonwoods Conduit project. Additionally, there has been an overall increase in O&M expenses over the last year, as well as an increase in bond interest expense as a result of the bonds that were issued in 2024.

	7/31/24	6/30/24	Difference
<b>27 Total Restricted Assets</b>	39,897,705	52,207,747	(12,310,042)

Explanation: The annual bond principal and semi-annual interest payments were paid in the month of July. This is the cause of the decrease in lines 18-21. This also relates to line 85 Future Debt Service.

	7/31/24	6/30/24	Difference
<b>56 Interest Payable - Bonds</b>	854,811	2,914,692	(2,059,881)

Explanation: As mentioned above, our semi-annual bond interest payments were paid in July.

**METROPOLITAN WATER DISTRICT**  
**Revenue Statement Comparisons**  
**For the Month Ending July 31, 2024**

	Year to Date	Average 3 YTD (Actual Dollars)	Difference
<b>7 Operations (Operating Expenses)</b>	446,494.17	296,991.74	149,502.43

Explanation: This difference is the result of higher chemicals expenses, mostly attributed to a need to use more chemicals in the treatment process. This is a result of higher turbidity and a higher content of organics in the water. Additionally, chemical prices have increased over time.

	Year to Date	Average 3 YTD (Actual Dollars)	Difference
<b>20 General Property Taxes (Non-Operating Revenue)</b>	306,626.37	84,613.59	222,012.78

Explanation: The District is beginning to see the effects of the newly implemented tax rates.

	Year to Date	Average 3 YTD (Actual Dollars)	Difference
<b>22 Interest Revenue (Non-Operating Revenue)</b>	609,617.74	127,819.16	481,798.58

Explanation: Interest rates have continued to remain high over the last couple years, causing a continual increase in interest revenue over the prior 3-year average.

	Year to Date	Total Budget	Difference
<b>23 Prior Year Tax Collections</b>	(165,686.99)	265,239.00	(430,925.99)

Explanation: In connection with the FY 2022 audit, it was determined that the District should include an accrual at year end to represent delinquent taxes still owed to the District. The Year to Date negative balance is the resulting effect of the reversal of that accrual, and it will be offset as prior year taxes are received. This account will always reflect a positive balance by the year's end.
